Upright Refrigerators

General features

- Reversible door provides flexibility in the placement of the refrigerator. Can easily be adjusted so the door opens to the right or left depending on the kitchen layout.
- Adjustable shelves provide flexibility in organizing the refrigerator. It is easy to adapt the space for both tall bottles and large food items.
- Large transparent vegetable drawer provides plenty of space for fruits and vegetables. The clear front makes it easy to see the contents and keep track of the items.
- Energy-saving LED lighting provides bright illumination throughout the cabinet. Consumes minimal energy and gives a pleasant overview of the contents inside the fridge.
- Removable door gasket makes cleaning quick and simple. Ensures a hygienic solution and contributes to longer lifespan of the refrigerator.
- Maxi door shelf provides extra space for large bottles and 2-liter cartons, ensuring practical storage for all types of beverages.

Handle	Outside
Digital display	Yes
Product dimensions, HxWxD, mm	1855 x 595 x 651

Upright Freezers

General features

- Freezing system: Traditional, Smartfrost, or NoFrost? A traditional system needs to be defrosted four times a year to keep energy consumption down, while Smartfrost prevents ice build-up and only requires defrosting once a year. NoFrost, on the other hand, is 100% self-defrosting.
- The freezer drawers make it easy to organize the contents and protect the food from temperature fluctuations when the door is opened.
- The transparent drawers provide a good overview and can help reduce food waste.
- The drawers are equipped with pull-out stops that prevent them from tipping when fully extended.
- The Bigbox drawer is ideal for storing bulky items that do not fit in standard drawers, such as turkey, ice cream cakes, etc.
- Integrated or external handle – choose between a minimalist and modern design without external parts or a classic and functional grip that is easy to use.
- The super freeze function quickly lowers the temperature, minimizing the formation of large ice crystals in the food. This is crucial to preserving texture and taste, especially in foods like meat, fish, and berries.
- With -15°C Outside, the freezer can be placed in a dry environment at temperatures down to -15°C. This feature is an extra function and not part of the freezer's climate class.
- A reversible door provides flexibility in the placement of the freezer, regardless of whether it opens to the right or left.
- Mechanical or digital control? A classic function without advanced settings, simple and user-friendly, or the option of more features and fine adjustments with digital display.

Combi Fridge/Freezers

General features

- Combined fridge/freezers are available in many variants, from small table-top models to large spacious cabinets with smart features.
- Large transparent vegetable drawer provides plenty of space for fruit and vegetables, while also showing what is inside, which can help reduce food waste.
- The freezer drawers have transparent fronts, making it easy to see what the freezer contains. A pull-out stop prevents the drawers from tipping when fully extended.
- Shatterproof glass shelves made of SafetyGlass mean they are extremely durable and shatter-resistant. Should an accident happen and a shelf is dropped on the floor, it will not break into sharp pieces.
- Supplied with a right-hinged door, but it can be reversed to become left-hinged. This makes it flexible and easy to place the fridge/freezer in most rooms.
- Removable door seal for better and more hygienic cleaning. The seal is also easy to replace when worn, without calling a technician, making it easy to maintain the insulating properties.
- Energy-saving LED light provides a clear overview. LED lights use very little power compared to incandescent bulbs and also have a longer lifespan.

Integrated Refrigerators, Freezers and Combis

General features

- Give your kitchen an aesthetic and stylish look with an integrated refrigerator, where the front matches the rest of your kitchen. It is ideal for open-plan kitchens as it provides a neat and uniform appearance.
- Cabinets with a width of 54 cm are designed to fit into all standard kitchen units.
- Models with a width of 59.6 cm require a wider kitchen cabinet for proper installation.
- The sliding rail system makes it easy to mount kitchen doors on the cabinet and ensures a stable and precise movement when the door is opened and closed. Fixed brackets are mounted directly between the kitchen door and refrigerator door, functioning as a single unit, providing a firm and stable solution.
- The doors can be mounted on both the right and left sides. This makes it easy and flexible to place the cabinet in the kitchen. It is practical if you want to create a side-by-side solution with refrigerator and freezer.
- The drawers in all cabinets have transparent fronts, providing a quick and easy overview of the contents.
- All glass shelves are made of SafetyGlass, making them extremely durable and shatter-resistant. Should an accident occur and a shelf is dropped on the floor, it will not splinter into sharp pieces.

Chest Freezers

General features

- In addition to providing large and flexible capacity, chest freezers are also easy to operate and simple to clean.
- All chest freezers, regardless of size, have strong insulation that ensures efficient freezing with low operating costs.
- A chest freezer takes up more floor space than an upright freezer, but when closed it also provides an extra and durable workspace with the sturdy top lid.
- Common to all models is that removable baskets are included (number depending on model), making it easy for you to categorize or arrange your food as it suits you best. Additional baskets can be purchased as accessories if more are needed than those included at purchase.
- The chest freezer can operate in dry environments down to -15 °C, which is optimal if it is placed in a garage. This is a feature not dependent on climate class.
- 2-in-1 function means that the freezer can operate in a temperature range from -12 °C to -24 °C, and as a refrigerator in a temperature range from 8 °C to 2 °C, allowing the freezer to also be converted into a cooling chamber.
- Inverter compressor ensures even temperature, lower energy consumption, and quieter operation.
- Interior light provides easier overview of the contents in the box.
- The lid can remain open at various angles between 45° and 75°. Provides easy access to the chest freezer without having to hold the lid manually.
- Lock on the lid provides extra security for storage and prevents unauthorized access.

Hobs

General features

- Ceramic or induction? Glass ceramic surface provides stable heat distribution on the zone. Induction hob heats up quickly and responds instantly to adjustments. Energy-saving technology that only heats when a pot/pan is placed on the hob.
- Timer function gives full control over cooking time and automatically switches off to avoid boiling over.
- Residual heat indicator shows when the cooking zone is still hot, increasing safety and helping to make use of the remaining heat.
- Automatic safety shut-off turns off the hob if it is left on, providing extra peace of mind in everyday life and protecting against overheating.
- Child lock prevents the hob from being switched on or settings changed accidentally. Increases safety in homes with small children.
- Power Boost provides extra high heat in a short time. Perfect for rapid boiling and efficient cooking.
- Traditional cooking zone or flex zone? Classic layout with fixed zones in different sizes is a well-known solution for everyday cooking. Alternatively, flexible cooking with a larger continuous area allows both small pots and large pans to be used on the same zone.

Hoods

General features

- LED lighting ensures pleasant and functional work light.
- Washable aluminium filter makes maintenance easy, can be cleaned in the dishwasher.
- Adjustable suction power – easily controlled with one button.
- Built-in motor – ensures easy installation, making it ideal for apartments and townhouses.
- Carbon filter can be purchased and retrofitted – so the air is cleaned of steam, odour and smoke.
- Undermount or wall mounting – all 60 cm wide to fit most kitchen units.
- Switch on the hood before cooking to maximize its capacity.
- Let the hood run for 15 minutes after cooking to ensure the last cooking fumes are removed.
- You should not open windows while the hood is running, as it affects air circulation and removes the low air pressure.
- Choose a hood that is at least as wide as your hob to achieve the best performance.

Microwave Ovens

General features

- Mechanical control provides simple and reliable operation with rotary knobs.
- Electronic control offers precise control, more functions, and a digital display.
- Classic microwave with microwave function for quick heating of food and drinks. Simple and user-friendly solution for everyday use.
- Microwave with grill function is perfect for gratinating, crispy surface, and quick cooking.
- Microwave combi oven combines microwave, grill, and convection in one solution, providing maximum flexibility for quick heating, crispy gratinating, and traditional oven cooking.
- Air fryer function delivers a crispy and golden surface with minimal use of oil. A healthier alternative to deep frying with the same delicious result.
- Defrost program ensures gentle and quick defrosting of frozen foods while preserving taste, texture, and nutrients.
- Timer function makes it easy to set the cooking time and provides full control and greater flexibility in cooking.
- Quick start function provides instant heating with one touch. A practical solution when time is short in a busy day.
- Turntable ensures even heating of food and delivers consistent results without cold spots.

Cookers and Built-in Ovens

General features

- Various oven functions such as convection, top and bottom heat, defrost, and grill provide great versatility in the kitchen and ensure that baking, roasting, and quick cooking can all be handled efficiently with perfect results.
- Timer or minute minder function provides control over the cooking time and ensures that food is cooked optimally without the risk of overbaking or overcooking.
- Multiple layers of glass door provide better insulation and lower energy consumption. The outer surface remains cooler, which also increases safety in the kitchen.
- The oven door is equipped with full glass on the inside and can easily be removed. The glass panels can be taken out without the use of tools, making cleaning simple. The oven seal can also be easily removed and replaced, making maintenance both quick and convenient.
- The oven cavity with easy-clean enamel is designed to make cleaning simple and convenient. The smooth surface prevents burnt-on food residues and simplifies daily maintenance. On selected models, there is also a pyrolysis program, which at very high temperatures burns food residues and grease to ash that can simply be wiped away with a damp cloth.
- True convection with ring heating element ensures even heat distribution throughout the oven cavity. Provides perfect results even when using multiple trays simultaneously. Fan at the back circulates the existing heat in the oven. This ensures faster heating but without the same uniform heat distribution as true convection.

Dishwashers

General features

- Dishwashers are available in different capacities such as 2, 6, 10, or 14 place settings. Allows you to choose the size that best fits the household's needs and the kitchen space.
- Freestanding, countertop, built-in, or integrated model? Freestanding model is flexible and easy to place as it only requires connection to water and power. Countertop model is compact and ideal for small households or places with limited space. Built-in model fits discreetly under the kitchen counter with a visible front panel, and alternatively, an integrated model can be hidden behind a kitchen door for a sleek and uniform kitchen design.
- Delayed start allows you to schedule the dishwashing at the time that suits you. A practical function to run the machine at night or when electricity is cheapest.
- AquaStop ensures effective protection against water damage. An integrated safety system that automatically shuts off the water supply in case of leakage.
- Salt and rinse aid indicator makes it easy to monitor refills, ensuring optimal washing results.
- AirDry technology automatically opens the door slightly at the end of the program to provide extra efficient drying and leave dishes completely dry and ready to use.
- ½ load program provides everyday flexibility by washing a half-full machine. Reduces both water and energy consumption without compromising the results.
- Adjustable racks and flexible cutlery solutions make it easy to adapt the space as needed. Provides optimal use of capacity and space for both large pots and small kitchen utensils.

Washing Machines and Tumble Dryers

General features

- The machines are designed with a focus on capacity, user-friendliness, and efficiency.
- With spacious drums of up to 8 kg, you have room for everyday laundry needs, and the robust construction ensures reliable operation.
- LED display and electronic control make operation simple and precise, while energy-saving technologies reduce both electricity and water consumption.
- Delayed start makes it possible to schedule drying so the machine starts when it suits you. Ideal for using night hours or lower electricity prices.
- The drum design is developed to be gentle on clothes while ensuring effective results.
- Flexible programs and functions make it possible to adapt each cycle to the family's needs, making everyday life both easier and more convenient.
- Panel with English text or panel label in English is included, providing quick overview of programs and functions. In addition, panel labels in Danish, Norwegian, and Swedish are included.

Wine Coolers

General features

- 1 or 2 zones: A single-zone wine cooler maintains a constant temperature throughout the cabinet. The advantage of 2 zones is that you can store several types of wine at their ideal temperature in the same cooler, saving space.
- Interior LED lighting provides an overview of your wine collection and highlights the bottles without affecting the wine's quality.
- Stable pull-out shelves in beech wood provide an elegant look and easy access to the bottles.
- Digital display ensures user-friendly operation and a quick overview of temperature and settings.
- Control panel for each zone offers full flexibility as well as easy and precise control.
- With or without UV-protected glass door that shields against sunlight and preserves the wine's aroma and color.
- Vibration-damped compressor preserves wine quality by minimizing movement during storage.
- Nordic design with clean lines and timeless style combines functionality with aesthetics.
- Adjustable temperatures give you full control over storage conditions for different types of wine.
- Built-in or freestanding – a flexible solution suitable for both kitchen integration and standalone placement.

Cool Cubes

General features

- Coolcubes with the nostalgic Coca-Cola design create attention and attract focus in any environment.
- No matter the placement, the Coca-Cola refrigerator will adorn any room.
- Can be placed freely on the table, in the shelf, or directly on the floor, providing greater freedom in furnishing and contributing to optimal user-friendliness and functionality.
- Black interior and stylish chrome door with integrated handle provide an exclusive and modern look that both highlights the items elegantly and creates a clean contrast to the refrigerator's contents. The combination of style and functionality makes the cabinet practical and ideal for shops, offices, and leisure environments.
- Reversible door allows it to open both to the right and left depending on placement, ensuring flexibility and making it easy to position the cabinet in most rooms.
- Adjustable shelf/shelves ensure optimal use of capacity regardless of the stored items. Thus, it is easy to adapt to both small snacks and tall bottles. This contributes to a tidy and clear presentation of the products.
- The cabinet can cool down to a temperature between 0–10 °C, ensuring the perfect serving temperature for cold drinks and snacks.

Display Coolers

General features

- Display refrigerators are used in shops, supermarkets, cafés, restaurants, gas stations, etc., and are suitable for self-service.
- Scandomestic has display coolers in many different sizes, providing a great opportunity to place the cabinet strategically to create focus and increase sales.
- The refrigerators come with or without a top sign, as well as lighting and the option for custom branding.
- Display coolers are excellent for impulse sales and highlight products in the best way.
- The shelves can be adjusted so that bottles, cans, and other items are stably and neatly presented in the cooler.
- LED lighting provides a clear and pleasant light throughout the refrigerator. An energy-saving solution that ensures a good overview of the contents and presents them in the best way.
- Branding on refrigerators is an effective way to capture consumers' attention. The cabinets are particularly suitable for branding side and top signs, which can be decorated in custom designs to give extra visibility to a brand. With many years of experience in decorating commercial cooling and freezing products, Scandomestic can help adapt branding solutions to individual specifications and needs.

Supermarket Units

General features

- Glass door and large presentation area in the door provide maximum visibility of the goods and contribute to a professional and sales-promoting presentation in the store.
- LED lighting in the cabinet is both vertical and horizontal, providing excellent illumination and presenting the goods nicely.
- The shelves can be adjusted at many levels and have a maximum weight capacity of 30 kg, ensuring optimal use of the cabinet's capacity.
- Side-by-side solution allows the combination of refrigerators and freezers in one integrated system, providing a harmonious and professional appearance in the store with uniform design.
- The cabinet is equipped with strong wheels, some with brake function, combining mobility and stability in one functional solution.
- Ventilated cooling in both fridge and freezer ensures an even temperature throughout the cabinet and reduces cooling time when new goods are loaded. This ensures a professional and reliable solution for daily use in supermarkets.

Supermarket Island Freezers

General features

- Dual function allows the box to adapt to the product range. Temperature range for freezer function from -15 to -24°C and for cooling function from +2 to +7°C.
- The freezer comes with lightweight sliding lids, making it suitable for self-service environments.
- The series is ideal for building island solutions, creating larger presentation areas. Use model SIF600C if an end model is needed for an island setup.
- The freezer is equipped with wheels, some with brakes to prevent unintended movement and improve safety. The wheels make it easy to move the freezer for cleaning, even when fully loaded.
- Strong wire baskets with a load capacity of 20 kg provide good product organization.
- LED lighting highlights the products attractively and enhances sales presentation.
- Display shelf offers extra exposure for promotional products on the freezer. The shelf is an optional accessory and must be ordered separately.

Display Freezers

General features

- Display freezers are ideal in supermarkets, kiosks, gas stations, hotels, restaurants, etc., and ensure with their glass door a good presentation of the freezer's contents.
- They come with lightweight sliding lids and are therefore very suitable for self-service, providing a great opportunity to place the cabinet strategically to create focus and increase sales.
- Scandomestic has freezers in many different sizes and variants.
- The freezers come with or without a top sign, as well as lighting and the option for custom branding.
- LED lighting provides good illumination and presents the products nicely.
- Branding captures consumers' attention. The cabinets are very suitable for branding side and top signs that can be decorated in custom design for extra visibility of a brand.
- Scandomestic has many years of experience decorating commercial cooling and freezing products and can help brand products according to specifications.

Impulse Coolers and Freezers

General features

- Impulse coolers and freezers ensure effective product presentation at a strategic spot at eye level.
- The compact size makes it ideal for placement at the counter or checkout line where it captures customers' attention. It is also easy to move and reposition depending on campaigns and sales needs.
- Transparent top ensures maximum product visibility and supports impulse buying in self-service environments.
- Perfect for decoration and branding that provide maximum visibility and visual profiling.
- Interior LED lighting provides a clear overview and highlights the products in an inviting way. Energy-saving lighting with long lifespan and low power consumption.
- Digital control provides precise temperature regulation and stable operation, ensuring consistent cooling or freezing so products are always stored correctly. Easy and user-friendly operation with accurate settings.
- Automatic defrosting effectively prevents ice build-up and ensures optimal cooling or freezing function. Reduces the need for manual maintenance and saves time in daily operations.

Can Cooler/Freezer

- A barrel cooler/freezer with its round design is highly suitable for branding and excellent for marketing products for impulse sales, especially cans, water, and ice cream.
- The barrel shape makes it easy to place in any space, both indoors and outdoors, where it is ideal for creating attention. With decoration in custom design, extra visibility is achieved. Scandomestic has many years of experience decorating commercial products on refrigerators and freezers and can assist with branding products according to your wishes.

Scoop Ice and Ice Cream Freezers

General features

- Freezer with 4 wheels, 2 of which have brakes, makes it easy to move around even when fully loaded. The wheels make it easy to change placement in shops, cafés, or during campaigns. Also practical for cleaning or remodeling the sales area.
- Top-class design with soft and rounded corners provides a modern and elegant appearance. Improves safety by minimizing sharp edges in customer environments.
- Front glass and transparent sliding lids that help retain the cold. Creates an attractive and inviting presentation of the ice cream, elegantly highlighting it and increasing customer desire to buy.
- With a lock, the contents can be secured outside opening hours or in self-service environments. An ideal solution for areas where goods need protection and unauthorized access must be prevented, providing peace of mind in daily operations.
- A practical interior design makes it easy to organize the ice cream, adjust, and optimize space utilization, providing a clear and quick overview.
- Branding helps companies and their products stand out from the crowd and capture consumers' attention. Scandomestic has many years of experience decorating commercial products and gladly assists with branding products according to your wishes.
- Ice cream freezers are suitable for self-service, making it possible to place the freezer strategically to create focus and boost sales.
- Scoop Ice has the curved shape that ensures better hygiene by reducing direct contact between customer and ice cream. Creates a professional look that fits perfectly in cafés, kiosks, and ice cream shops.

Back Bars

General features

- Back bars are ideal for cooling all types of beverages, wine, and glasses, and are typically used in cafés, bars, hotels, and restaurants.
- The cabinet can cool down to a temperature between 0–10 °C, ensuring optimal serving temperature for most types of beverages.
- Supplied with sturdy shelves with dense wires, ensuring that all types of glasses, cans, and bottles stand securely on the shelves.
- The cabinet has a lock, making it possible to lock the door. Ideal for protecting goods outside opening hours or in self-service areas. Contributes to better control and security of contents in daily operations.
- The door closes automatically, minimizing temperature increases and ensuring stable cooling. Practical in busy environments and reduces energy consumption as cold air does not escape unnecessarily.
- Energy-saving LED lighting provides a good and pleasant light and ensures good visibility even in dimly lit environments such as bars and cafés, creating a professional and attractive presentation of the cabinet's contents.
- The cabinet has an air circulation system, ensuring even and stable ventilated cooling throughout the entire cooling compartment. Maintains uniform serving temperature of beverages, ideal in busy environments where the cabinet is frequently opened and closed.
- Electronic control provides precise temperature regulation and easy, user-friendly operation with accurate settings. Also reduces energy consumption through efficient regulation of cooling.

Gross- / Net volume, L	198 / 158
Temperature range °C	0 / 10
Product dimensions, HxWxD, mm	865 x 900 x 530

SC 211 HDE

1.289 EUR

Recommended retail price
incl. VAT

Back Bar

- Self-closing hinged glass doors with lock
- 4 adjustable chrome shelves
- Easy access electronic thermostat
- LED interior light

Energy efficiency class	D
Annual energy cons. kWh/a	493
Climate class	ST
Reversible door	No
Gross- / Net volume, L	198 / 158
Temperature range °C	0 / 10
Product dimensions, HxWxD, mm	865 x 900 x 530

BB211SLBB

1.539 EUR

Recommended retail price
incl. VAT

Back Bar

- Ultra energy-efficient
- Ventilated cooling for fast and even pull-down cooling
- Self-closing sliding doors with lock
- Electronic thermostat and light switch

Energy efficiency class	B
Annual energy cons. kWh/a	211,7
Climate class	4
Reversible door	No
Gross- / Net volume, L	198 / 158
Temperature range °C	0 / 10
Product dimensions, HxWxD, mm	870 x 900 x 543

SC 211 SLE

1.319 EUR

Temperature range °C	0 / 10
Product dimensions, HxWxD, mm	865 x 1350 x 520

Storage Coolers and Freezers

General features

- Storage cabinets are often used as storage capacity and are approved for industrial kitchens.
- The cabinets come in many different sizes. They are also available in different materials, either stainless steel or white lacquered, with a solid door or a glass door.
- Interior options and shelf sizes vary from model to model. There is a wide range from undercabinets to large cabinets, all with good technical specifications for cooling in professional kitchens.
- Digital temperature control provides precise regulation of cooling or freezing levels and ensures a stable temperature so products are always stored under optimal conditions.
- Wire shelves in a robust construction that withstand load and daily use. They can be adjusted for better flexibility and interior options in the cabinet, contributing to clear and organized storage of products.
- Automatic defrosting prevents the build-up of ice in the cabinet and makes cleaning and maintenance easier and more time-saving.
- LED lighting provides a clear overview of the entire cabinet's contents and is an energy-saving light source with long lifespan and low power consumption.
- Self-closing door ensures that the cabinet always closes after use, which is a practical function in busy environments. It preserves the cold inside the cabinet and ensures a stable temperature, reducing energy consumption.

Storage Coolers and Freezers

SK 145 E

1.039 EUR

Storage Refrigerator

Recommended retail price
incl. VAT

- Self-closing hinged solid door with lock
- 3 adjustable coated wire shelves
- Digital temperature control
- Ventilated cooling

Energy efficiency class	C
Annual energy cons. kWh/a	365
Climate class	6
Reversible door	No
Gross- / Net volume, L	145 / 145
Temperature range °C	0 / 10
Product dimensions, HxWxD, mm	820 x 595 x 595

SK 145 GDE

1.149 EUR

Storage Refrigerator

Recommended retail price
incl. VAT

- Self-closing hinged glass door with lock
- 3 adjustable coated wire shelves
- Digital temperature control
- Ventilated cooling

Energy efficiency class	D
Annual energy cons. kWh/a	460
Climate class	6
Reversible door	No
Gross- / Net volume, L	148 / 145
Temperature range °C	0 / 10
Product dimensions, HxWxD, mm	820 x 595 x 595

GUR190W

719 EUR

Storage Refrigerator

Recommended retail price
incl. VAT

- Ventilated cooling
- Reversible door with lock
- Digital controller with temperature alarm
- 2 strong shelves with max load 30kg.

Energy efficiency class	C
Annual energy cons. kWh/a	1037
Climate class	5
Reversible door	Yes
Gross- / Net volume, L	110 / 110
Temperature range °C	1 / 10
Product dimensions, HxWxD, mm	880 x 595 x 655

GUR200X

1.109 EUR

Storage Refrigerator

Recommended retail price
incl. VAT

- Reversible and self-closing door with integrated handle
- Fan assisted cooling
- Automatic defrost
- Digital thermostat

Energy efficiency class	C
Annual energy cons. kWh/a	313,9
Climate class	4
Reversible door	Yes
Gross- / Net volume, L	143 / 73
Temperature range °C	0 / 8
Product dimensions, HxWxD, mm	885 x 595 x 653

Storage Coolers and Freezers

GUR390W

1.749 EUR

Storage Refrigerator

Recommended retail price
incl. VAT

- Ventilated Cooling
- Digital controller
- Strong external stainless handle
- 4 strong coated wire shelves

Energy efficiency class	C
Annual energy cons. kWh/a	523
Climate class	5
Reversible door	Yes
Gross- / Net volume, L	293 / 293
Temperature range °C	1 / 10
Product dimensions, HxWxD, mm	1870 x 595 x 625

GUR590WB

2.019 EUR

Storage Refrigerator

Recommended retail price
incl. VAT

- GN 2/1 norm - Ventilated Cooling
- Digital controller - temperatur range 2 to 8°C
- Strong external stainless handle
- 4 strong coated wire shelves + 1 in bottom

Energy efficiency class	B
Annual energy cons. kWh/a	427
Climate class	4
Reversible door	Yes
Gross- / Net volume, L	510 / 510
Temperature range °C	1 / 10
Product dimensions, HxWxD, mm	1882 x 775 x 707

GUR600W

2.559 EUR

Storage Refrigerator

Recommended retail price
incl. VAT

- GN2/1 suitable
- Ventilated cooling - Automatic Defrost
- 4 x GN2/1 removable coated wire shelves
- Reversible solid door

Energy efficiency class	C
Annual energy cons. kWh/a	668
Climate class	4
Reversible door	Yes
Gross- / Net volume, L	544 / 476
Temperature range °C	1 / 8
Product dimensions, HxWxD, mm	2000 x 750 x 750

GUR700X

3.899 EUR

Storage Refrigerator

Recommended retail price
incl. VAT

- Right hinged self-closing door with 120° dwell position
- Suitable for GN 2/1 containers
- Height-adjustable stainless legs 125-200mm
- 3 Epoxy-coated wire shelves - max 40 kg capacity

Energy efficiency class	C
Annual energy cons. kWh/a	577
Climate class	4
Reversible door	Yes
Gross- / Net volume, L	543 / 461
Temperature range °C	-2 / 8
Product dimensions, HxWxD, mm	2040 x 653 x 842

Storage Coolers and Freezers

GU190W

779 EUR

Storage Freezer

Recommended retail price
incl. VAT

- Ventilated cooling
- Reversible door with lock
- Digital controller with temperature alarm
- 2 strong shelves with max load 30kg.

Energy efficiency class	B
Annual energy cons. kWh/a	1059
Climate class	5
Reversible door	Yes
Gross- / Net volume, L	110 / 110
Temperature range °C	-15 / -25
Product dimensions, HxWxD, mm	880 x 595 x 655

SF 115 X

1.109 EUR

Storage Freezer

Recommended retail price
incl. VAT

- Self-closing hinged solid door with lock
- 3 wire baskets
- Digital temperature control
- Static cooling

Energy efficiency class	B
Annual energy cons. kWh/a	438
Climate class	6
Reversible door	No
Gross- / Net volume, L	117 / 115
Temperature range °C	-16 / -22
Product dimensions, HxWxD, mm	820 x 595 x 595

GU200X

1.209 EUR

Storage Freezer

Recommended retail price
incl. VAT

- Reversible and self-closing door with integrated handle
- Ventilated cooling
- Automatic defrost
- Digital thermostat

Energy efficiency class	C
Annual energy cons. kWh/a	872,4
Climate class	4
Reversible door	Yes
Gross- / Net volume, L	143 / 73
Temperature range °C	-18 / -22
Product dimensions, HxWxD, mm	885 x 595 x 653

GU390W

1.879 EUR

Storage Freezer

Recommended retail price
incl. VAT

- Ventilated Cooling
- Digital controller
- Strong external stainless handle
- 4 strong coated wire shelves

Energy efficiency class	B
Annual energy cons. kWh/a	980
Climate class	5
Reversible door	Yes
Gross- / Net volume, L	293 / 293
Temperature range °C	-18 / -22
Product dimensions, HxWxD, mm	1870 x 595 x 625

Storage Coolers and Freezers

GUF590WB

2.149 EUR

Recommended retail price
incl. VAT

Storage Freezer

- GN 2/1 norm - Ventilated Cooling
- Digital controller - temperatur range -18 to -22°C
- Strong external stainless handle
- 4 strong coated wire shelves + 1 in bottom

Energy efficiency class	B
Annual energy cons. kWh/a	1376
Climate class	4
Reversible door	Yes
Gross- / Net volume, L	510 / 510
Temperature range °C	-15 / -25
Product dimensions, HxWxD, mm	1882 x 775 x 727

GUF700X

4.029 EUR

Recommended retail price
incl. VAT

Storage Freezer

- Right hinged self-closing door with 120° dwell position
- Suitable for GN 2/1 containers
- Height-adjustable stainless legs 125-200mm
- 3 Epoxy-coated wire shelves - max 40 kg capacity

Energy efficiency class	D
Annual energy cons. kWh/a	2485
Climate class	4
Reversible door	Yes
Gross- / Net volume, L	543 / 461
Temperature range °C	-16 / -21
Product dimensions, HxWxD, mm	2040 x 653 x 842

Decoration

Scandomestic has many years of experience in branding commercial refrigerators and freezers

Here's how we can help;

Scandomestic can offer decoration of your products from 1 piece and upwards.

Decoration is done with either 0.5 mm wrap, on specific products, or as white vinyl adhesive.

Printing is done with CMYK colours on professional large format printers.

We do not have the option to print PANTONE colors.

File specifications for decoration:

- Finished printable PDF-files with 5 mm extra design for cropping incl. crop marks.
- CMYK Colours.
- Minimum 100 dpi if the file contains photos.
- Made to scale (scale 1:1) according to our design forms, which can be downloaded from our website.

Contact us for an offer.
